MINI SPACENET

COR30281

The Mini Spacenet is a bouncy, transparent play structure that encourages children to climb to the top. The feeling of achievement and when having climbed to the top is phenomenal, attracting children again and again trying different routes each time in a fun but challenging way. The Mini Spacenet trains motor skills, AEC, Agility, Balance and

Coordination. Major muscle groups are used when children climb, including, arms push and pull, legs push and the core provides stability.

MULTISPINNER CAROUSEL

ELE40062

The quirky look of the fabulous Multispinner Carousel attracts children to try it out again and again. Easily accessible due to its inclination having one lower and one higher end, the Multispinner embraces both younger and older children. The bowls make comfortable seating options. The middle part is a stage of stage for those with extremely good balance skills. With

great cooperation skills, the Multispinner can be spun from seated position, having children coordinate their swinging movements, leaning forwards and backwards in an agreed rhythm. Thus the Multispinner, apart from being great fun, trains cooperation and team work. The spinning movement is a great training of the vestibular system, the sense of balance in

particular. The sense of balance is fundamental to for instance the ability to sit still on a chair, concentrating, in other words, the Multispinner is great play with a purpose.

ROTATING TABLE

MB71

The Rotating Table is a wonderful sand play experience for children: the lower table can be turned, so that sand or other materials can be filled through the holes or down on a platform. The upper table has a sand bowl for mixing materials. There is a sieve to filter materials through and a funnel to shift materials from the upper to the lower table. The lower table can be

turned to transport materials around to friends on the opposite side of the table. All these play options stimulate an understanding of cause and effect in the child, that leads into logical thinking skills. If the lower table is turned, materials can be collected or discharged from the higher table. A wealth of manufacturing possibilities in the Rotating Table, producing or

transporting, in obvious cooperation and dramatic play, and thus communication skills.

DAISY DESK WITH BOWL

MD6003

Item no. MD6003-3410P	
General Product Information	
Dimensions LxWxH	99 x 99 x 38 cm
Age Group	6m +
Play Capacity	3 children
Colour Options	

The Daisy Desk with bowl immediately attracts and welcomes infants and toddlers with its age appropriate size and cute flower theme. The desk provides an ergonomically perfect place to work with loose parts or creative materials, together with friends or care givers. The yellow bowl is a perfect container for materials. It can be filled and emptied, a favourite activity for

young children. The Daisy Desk with Bowl encourages social play: the roundings of the desk each welcome a player. The round shape encourages eye contact and true cooperation and conversation. The budding social skills in infants are stimulated by the fact that they can see all the other children thanks to the round shape of the Daisy Desk. The Daisy Desk with

Bowl offers toddlers an opportunity to break out from the wider action in playgrounds.
